

# Washer extractor

WH6-14

## Washer featuring exceptional savings and effortless use

## Priority on people

Certified ergonomic design with a human-centered approach for an outstanding user experience

- ClarusVibe microprocessor and 7" color TS control: intuitive, fully editable programs, multi-language, on-screen statistics, fully controlling the detergent pumps
- Very easy connection to Electrolux pumps Jetsave and Dosave with one cable for power supply and one for dosing signals
- · Simple connection to all generic pumps
- · Connection to up to 15 pumps

#### Long-term savings

Innovative features designed for lowest possible water, energy and detergent consumption, to save money and time, and embrace a sustainable lifestyle

- Automatic Savings weighs the linen and adjusts the water level to the amount of linen, saving water and energy at less than full load
- Intelligent Dosing ensures that the precise amount of chemicals will be added automatically according to the weight of the load, saving chemicals
- Power Balance measures, corrects the unbalance and adjusts the G force in real time, maximizing the dewatering, saving money and time in the drying process

#### Pure control

Monitoring of the status of the equipment and performance from anywhere, allowing to take action to improve the business

 Washers connectable to OnE Laundry, the personal assistant for hygiene validation, process management and revenue management

### Main options and accessories

- Front loaded detergent dispenser, positioned at ergonomic height for easy access, clear visibility; 6 color coded compartments make dosing easy and flexible with dedicated compartments for powder or liquid chemicals as well as bleach and softener; removable compartments ensure easy maintenance
- Integrated Savings is measuring the load in real time, ensuring optimization of the load and maximum productivity. IS provides also extended machine lifetime through the unique overload protection function, as machine will not start if overloaded; it will also reduce water and energy consumption at less than full load
- Dosave pumps (peristaltic) and Jetsave pumps (venturi) for less maintenance, precise and consistent dosage, easy installation and durable valves
- Connection to booking-/payment system or coin meter
