

VACUUM CHAMBER PACKING

Idea 41

The Idea Line includes all the advantages of Orved technology: absolute vacuum sensor for perfect vacuum in all circumstances, hydroformed vacuum chamber for long-lasting quality and ease of cleaning, power sealing for multiple sealing of overlapping vacuum bags.

Thanks to its internal sensors, the packaging machines of the idea line, can ensure a perfect vacuum in any conditions with any type of product, food or non-food or liquids.

The digital control panel includes a memory of 10 vacuum programs, with the possibility to add gas (MAP) or to perform a deaeration program (degas) to create special vacuum cycles for every customer's need.

The robust chamber with rounded steel edges allows easy cleaning after use.
